

## The Commonwealth Club Electronic Device Rules

The Commonwealth Club is a private social club. In keeping with the Club's traditions and values, entry to the Club by Members and their guests requires compliance with the Dress Code and Electronic Device Rules.

Members are responsible for informing their guests of appropriate Club attire and use of electronic devices.

### Electronic Devices

For the consideration of others, all electronic devices must be on **silent mode**, within the Club.

Members and guests are permitted to make and receive mobile telephone calls in the designated areas of the **Hallway Telephone Table** and in the Club's **Accommodation Rooms**, or **outside the Club's main front entrance**.

For the convenience of Members and guests, on-silent smart phones, tablets, laptop computers and other electronic devices are permitted in most areas of the Club for the purposes of working quietly, sending, and receiving written communications and operating scheduling services.

**Photographs & Videos** cannot be taken in public areas inside the club.

*Please note these rules are reviewed regularly. If you have any queries, please contact the General Manager.*
